

AQ2000

*Stopping bin/refuse
fires in high-rise
buildings*

AQ2000

Refuse stores are often the largest fire risk in high-rise buildings

AQ2000

Many fires are accidental, but some are deliberately started by arsonists

AQ2000

*Even small fires can
be costly and
dangerous*

AQ2000

*Because of smoke,
residents often have
to be evacuated*

AQ2000

*These scenarios can
be prevented by
fitting the AQ2000
fire suppression
system*

AQ2000

*Intelligent, mains
water misting
system, minimises
water usage*

AQ2000

*Fully automatic it is
easily retrofitted,
providing 24 hour
protection*

AQ2000

*Early detection,
fast response, with
remote signaling
options*
