

In residential homes everywhere...

...there's more going
on than meets the eye!

The Autoquench concealed sprinkler system

"As well as a competitive price, our main criteria was to find a Company that was approachable and ready to discuss the technicalities of the projects with ourselves and our contractor - Autoquench fits the bill perfectly".

Fire Protection Systems

The residential concealed sprinkler

A new dimension...

High quality, discreet residential sprinklers enable Architects and Planners to design prestigious homes and conversions in new and exciting ways - taking space, innovation and aesthetics to a new dimension - yet still complying with latest fire standards.

Leading Architects and Homebuilders choose Autoquench residential sprinklers because it gives them instant access to:

- Competitive quotations
- Approachable fire experts
- Qualified designers and installers
- Solutions compliant to all British Standards
- Advice from planning through to commissioning
- Supervision and Certification

From the initial enquiry stage, we are available to discuss the sprinkler specification, installation and finishes to ensure that our systems integrate seamlessly with the rest of the works. We understand our Clients concern that the sprinkler systems be as unobtrusive as possible and will not conflict with other services - Autoquench will work with you to ensure that the systems meet all the necessary technical requirements as well as maintaining the aesthetic quality you are trying to achieve.
